STAINLESS SCRUB SINKS

 **SKYTRON**[®]
TRUSTED PARTNER | PROVEN SOLUTIONS

Quality Stainless Steel Scrub Sinks for Every Clinical Need

Skytron's Stainless Steel Scrub Sinks provide quality, convenience and flexibility for every clinical need. Scrub Sinks are available with knee-kick and/or optional infrared module for "hands-free" operation. In addition, the optional Eye Wash (EW) feature provides a central, visible location to all staff, and saves valuable floor and wall space.

The Standard Knee Kick (-MK) panel is 16" wide and 8-1/2" high and is centered to the faucet for left or right knee operation.

Optional Infrared Module (-IRM) conserves water usage.

Optional Eye Wash (-EW) safety feature.

Single Bay with optional Infrared Module and Eye Wash (SS2121-MK-IRM-EW)

Double Bay with optional Infrared Modules (SS2122-MK-IRM)

Triple Bay with optional Infrared Modules (SS2123-MK-IRM)

Deck Mounted Mixing Valve for Optimal Temperature Control

A highly visible, deck mounted mixing valve provides optimal temperature control. Deep sloped sink design minimizes backsplash, while plexiglass splash dividers prevent cross-bay contamination. High quality gooseneck faucet(s) create wide, "rosette-style" spray or steady stream dependent upon user preference. Large 1-1/2" drain(s) promote fast and efficient water drainage for every scrub cycle.

Key Features:

- Deep Sloped Sink
- Knee Kick
- Heavy Gauge Stainless Steel
- Plexiglass Splash Divider
- Deck Mounted Mixing Valve

Optional Equipment:

- Eye Wash Feature
- Infrared Module(s)
- Wall Support System
- Back Shelf
- Laminar Flow Nozzles
